

AMENDMENTS TO THE SPECIFICATION:

Please amend paragraph [0013] on page 3 of the present specification, as follows:

A1 [0013] Figure 1A shows a first image stored in a database, the first image representing a conventional keyboard (all keys are not illustrated). Figure 1B shows an apparatus, represented as a movable display 100, for displaying information in accordance with an exemplary embodiment of the present invention. The movable display 100 has a display screen 102, and can be configured similar to that described in copending U.S. Application Serial No. 09/748,156, entitled METHOD AND APPARATUS FOR VIRTUAL INTERACTION WITH PHYSICAL DOCUMENTS (Attorney Docket No. 10003870/004), filed December 27, 2000, wherein a hand held display apparatus available as the Jornada™ 540 series from Hewlett Packard is described. This display screen 102 can be a flat screen housed in a case, and the display apparatus can include a thumb wheel for magnifying and/or reducing the magnification of a displayed image. Such a feature can be used in accordance with exemplary embodiments of the present invention to control the size of a displayed digital image, and thus, the portion of the first image correlated to the display screen 102.
